The screenshot shows the Zoom web interface. In the top navigation bar, there are links for 'SOLUTIONS', 'PLANS & PRICING', 'CONTACT SALES', and 'SCHEDULE A MEETING'. On the left sidebar, the 'Settings' option is highlighted with a red box. In the main content area, the 'Meeting' tab is selected and highlighted with a red box, and within it, the 'Security' sub-tab is also highlighted with a red box. The 'Security' section shows a toggle for 'Require that all meetings are secured with one security option' which is turned on.

This is a pop-up window from Zoom. It contains the following text:

- Only authenticated meeting participants and webinar attendees can join meetings and webinars** (with a toggle switch turned on)
- Meeting participants and webinar attendees will need to authenticate prior to joining a session. Hosts can choose one of the options below when scheduling meetings or webinars. [Learn more](#)
- Meetings & Webinar Authentication Options:**
- A table with two rows:
